

Opioid Use Disorder patient and family education brochures - buprenorphine/naloxone (Suboxone)

Date: January 23, 2019
To: Alberta Health Services
From: Emergency Strategic Clinical Network™ (ESCN)
Heather Hair, Executive Director, ESCN
RE: Opioid use disorder (OUD) patient and family education brochures
Buprenorphine/Naloxone (Suboxone)

Background:

The ESCN has partnered with over 150 patients with lived experience to understand the required educational needs with patients suffering with OUD. In addition, our expert panel has contributed to the development of these educational brochures based on evidence and treatment of this population.

The purpose of these two documents is to give both patients and family/friends the required information necessary to inform their care in a language that is simple and understandable to encourage a conversation and obtain treatment.

There are **2 trifold brochures** available for you to order that have been registered with our provincial catalogue via DATA as a Print on Demand. You will need to provide your function centre when ordering.

Brochure # 1. Suboxone and you – Help for your OUD- for patient Item # 105081

Brochure # 2. Opioid Use Disorder & you – Information for OUD users friends and family Item # 105096
