

How is Primary Care Responding To The Opioid Crisis?

The Primary Health Care Opioid Response Initiative (PHC ORI) aligns all provincial health partners in supporting primary care teams to effectively tackle the opioid crisis. This grant funded initiative is:

- Improving Access, Continuity and Care Delivery
- Implementing and Supporting Knowledge Translation and Education
- Enhancing Coordination of Care and System Integration
- Developing and Implementing a Service Plan and Urgent Response for The Integrated Delivery of Opioid Related Care.

Take Action against the opioid crisis by leveraging all the resources available to primary care teams: <http://bit.ly/phc-ori>
