Sample Screening Process (Outreach)

POET

POET or MOA

- Process performed once/month for each physician's panel
- Each MOA responsible for 2 physicians' panels
- Over a 1 year period, each maneuver provides the basis for the search once
- A patient chart may come up during consecutive months, serving as a further reminder to complete screening
- For patients who decline particular maneuvers, exemptions can be made in the EMR
- Assume that not every patient on list will be contacted every month

Monthly Maneuver List
